Professional Alarm System

6 Video Zones

ALARMVIEW

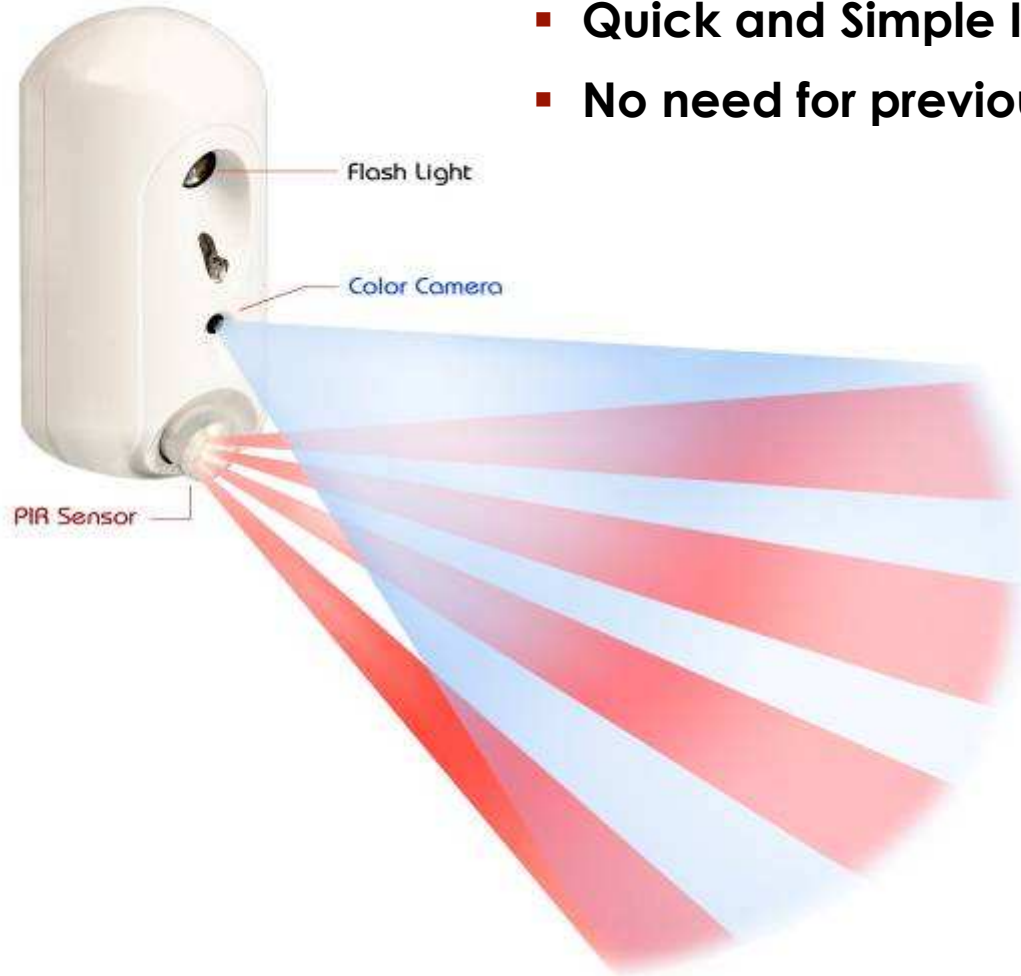

24 Regular Zones

- CE, Grade 2 Compatible
- SIA, CID Protocols
- Video Verification

Up to 36 standard Wireless Peripherals
(24 regular Zones, 6 Keyfobs, 6 Panic buttons)

SmartView™ - Smart Sensor with Color Camera

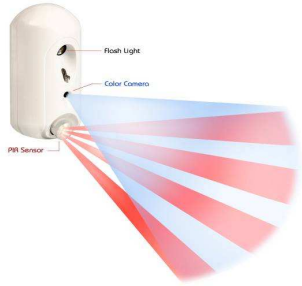

- Quick and Simple Installation
- No need for previous knowledge or special training

- ✓ Color Images
- ✓ Matched field of View
- ✓ Rapid Image Acquisition
- ✓ 3-Years Battery Life Time
- ✓ 2-Way wireless Communication

“Matched field of view” between Camera and PIR sensor, to allow fast and easy installation (no need for any adjustment)

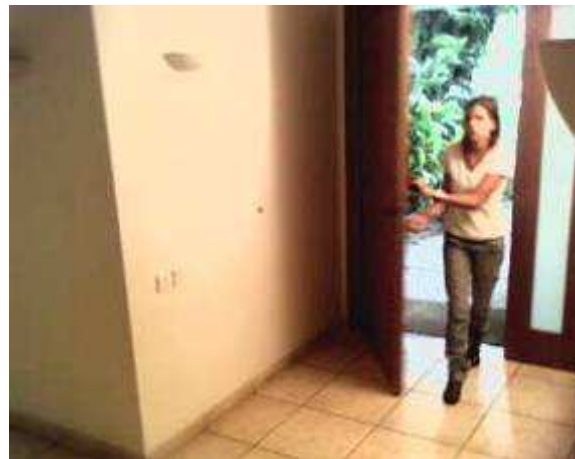

Rapid Image acquisition - Color Images

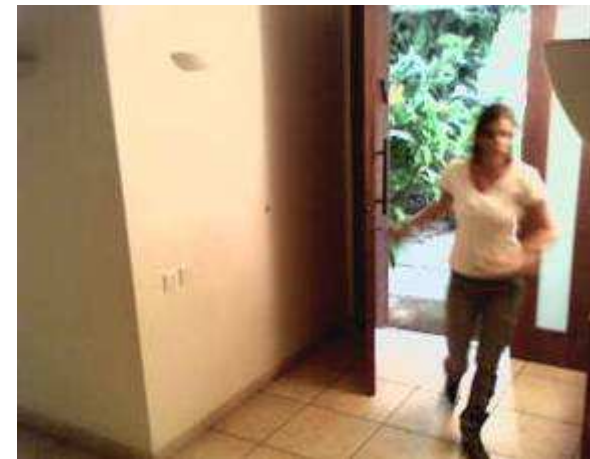

On-Arm Pre Alarm

Alarm Event

Post Alarm

Immediate Verification upon Event

Video Verification (upon Alarm Event)

- Fast Image-acquisition upon alarm event
- Stored Pre-alarm (On-Arm) state in each sensor
- Suitable for Self-Monitoring and Professional Monitoring Stations

Remote Look-In

1. SMS request command – by authorized users only!
2. Image/Video clip retrieved on the cellular of authorized user
3. CMS can decide to turn off or limit the function of this feature

Privacy is guaranteed !!!

User/Installer-Friendly Graphic Display

Create your own Logo

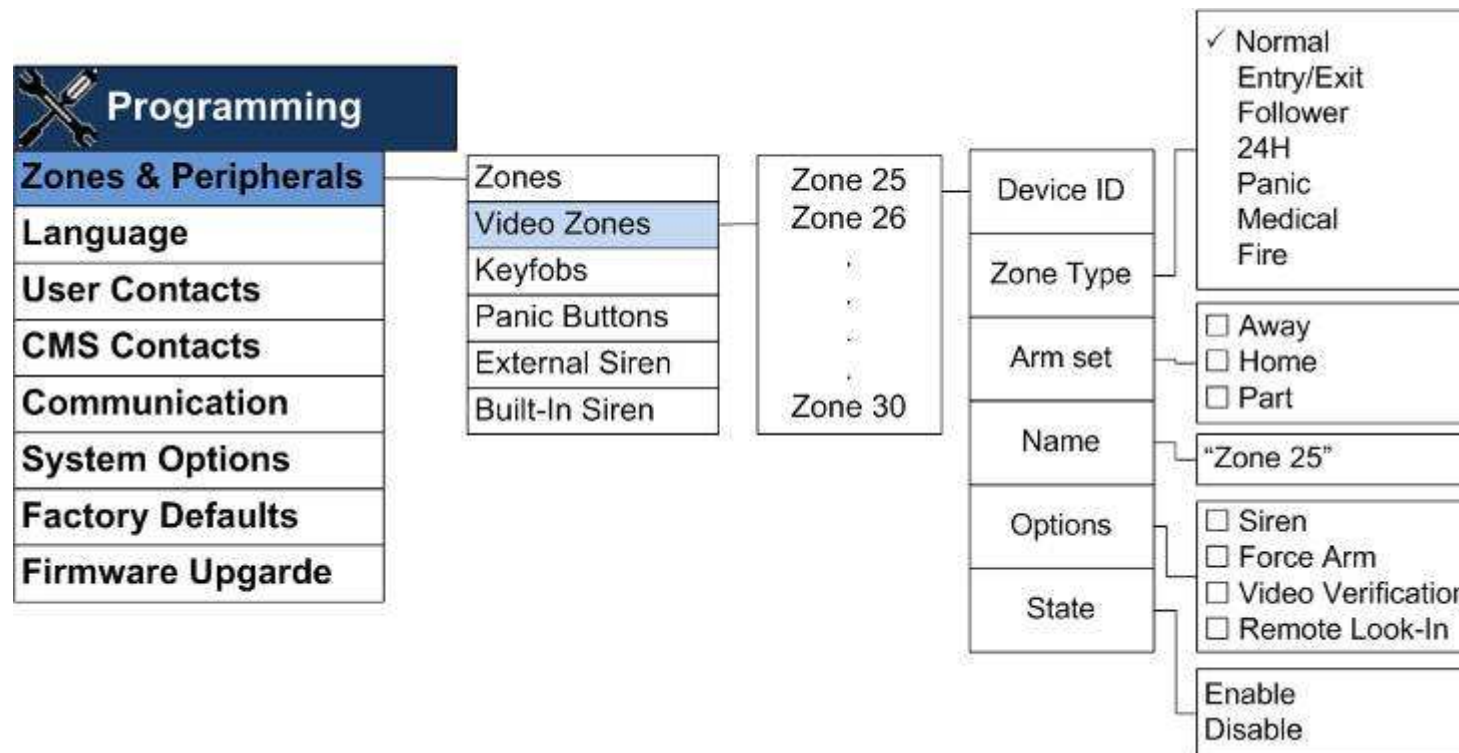

Graphic Icons

Self Monitoring - Summery

Self Monitoring, Now made easy

It's Plug-n-play

No Servers or complex infrastructure are required

- Fast and simple deployment (DIY) – 7 steps to full operation
- Real Self-Monitoring: **Text Message + Image/Video**
- Remote Image/Video Look-In on your mobile, working station or Gmail account, from anywhere you are
- Simple mobile operation
 - No need for complex web-login
 - No installation on phone required
- High quality color images / video clips
- Graphic, user-friendly LCD display

OutView™

Outdoor Wireless Camera w/External Alarm Trigger

- Outdoor Enclosure, Operates **-20°C up to +60°C**
- Fully wireless, stand alone integrated unit
- Color VGA CMOS camera
- Digital 2.4GHz wireless network (proprietary)
- **External Alarm Trigger (for wired outdoor sensors, etc.)**
- Image storage & transmission to AlarmView
- Pre, alarm and post event
- JPEG & MPEG-4 compression
- Power source:
 - External power supply (9-12Vdc)
 - Optional: 2 x AA lithium batteries

LiveView™

PIR Motion detection with Video Clip transmission

- Fully wireless – in a compact integrated unit design
- Integrated PIR & Color Camera
 - ❑ *“matched field-of-view”* of PIR & Camera
 - ❑ Color VGA CMOS camera
 - ❑ Dual element PIR sensor (7x7 meter coverage)
- Guaranteed reliability & Privacy on a Digital 2.4GHz FHSS wireless network (proprietary)
- Pre and post alarm in 7 sec Video clip (file size < 150Kb)
- Image storage & transmission to AlarmView
- MPEG-4 & JPEG Compression
- Battery-operated
 - ❑ Easy battery replacement by end user (2 x AA lithium)
 - ❑ 2-year lifetime

Add-on to Existing Alarm Systems

Quick upgrade of old-wired/wireless systems:

1. Backup report over GSM
2. Video Verification and Video Look-in

Local/Remote Programming Tool

The screenshot displays the MTeye AlarmView Programming Tool interface. At the top, the window title is "MTeye AlarmView Programming Tool" and the menu bar includes "File", "Edit", and "Help". Below the menu bar are four icons: "Open", "Close", "Read", and "Write". A green status bar on the right indicates "Jacson's House (Connected)".

The main interface is divided into several sections:

- System State:** Shows a padlock icon and four buttons: "Disarm" (with a red X), "Away" (with an arrow pointing right), "Home" (with an arrow pointing left), and "Partial" (with an arrow pointing up).
- Event Log:** Shows a clipboard icon and two buttons: "Clear" (with a trash can icon) and "Read" (with a magnifying glass icon).
- Other:** Shows a green checkmark icon and a "Stop Siren" button (with a speaker icon).
- Zone Bypass:** A grid of 30 checkboxes labeled "Zone 1" through "Zone 30". A "Set" button is located at the bottom right of this section.

A sidebar on the left contains the following categories:

- General
- Options
- Actions (highlighted)
- Time & Date
- Passwords
- Zones & Periph.
- User Contacts
- CMS Contacts
- Communication
- Tools

The Windows taskbar at the bottom shows the Start button, several open applications (Inbox - Microsoft..., Front Page NEW, New AlarmView N..., untitled - Paint, MTeye AlarmVi...), and system tray icons including volume, network, and the time 15:19.
